Candidate Confirmation: How my grades have been determined and will be awarded in summer 2021

Candidate name		Candidate number	
----------------	--	------------------	--

Please carefully read the following statements which highlight key information related to the awarding of your exam grades this year.

- I understand that my grades this year will be determined using the Teacher Assessed Grade (TAG) process outlined in the Ofqual, JCQ and exam board guidance, and that the links to these documents can be found on the school website.
- I have only been assessed on areas of the course taught in sufficient depth to allow a secure judgement to be made. This may include content covered during periods of lockdown through online learning.
- I understand that my teachers will use a range of evidence to determine my grade and I have been informed of the pieces of work that will be used for my overall grade for each subject.
- I can confirm that the work that will be submitted as evidence is my own independent work.
- Where I have been granted any approved access arrangements/reasonable adjustments my school have ensured that these were in place when evidence was gathered. Where appropriate reasonable adjustments were not in place when I took an assessment I understand that my teacher will take this into account when determining my grade or consider alternative evidence
- I have raised concerns about any evidence being used with my teacher, where for example, the evidence was affected by my personal circumstances, such as illness at the time of the assessment
- Negotiation has not taken place between myself/my parent/carer/guardian and my teachers to try to influence my grade
- I am aware that after my teachers determine my grade in a subject it will be reviewed by other teachers in my school and that grades will be determined consistently according to my school's centre policy
- I have been made aware that if I believe a genuine error has been made in determining my grade, I will have a right to appeal through my school

By signing below I confirm that I understand the statements above and agree that these are correct
